

SOLECON in SILICON Valley

WHAT IS "SOLECON"?

Solecon is an invention contest using **Takaha Solenoid**, held annually by **Takaha Kiko Co., Ltd.** a specialized manufacturer of solenoids. The Takaha Solenoid Contest (also known as: **Solecon**) is a contest for anyone from children to adults.

If anyone likes to make and invent, anyone can apply for a contest! The grand prize winner will receive US\$500 cash & US \$500 solenoid gift coupon, and a trip to Japan to visit Takaha Kiko.

*Solenoid gift coupon can be used at Takaha online shop.

(2018 SOLECON "LIKE" AWARD)

KUSURIPPI

This alarm robot "Kusurippi" prevents you from forgetting to take medicine. It has an inner clock system that cheerfully alarms your medicine time. And, it spits out a single dose of your medicine when you press its hat!

WHAT IS A DC SOLENOID?

It is an electric device that emits an electromagnetic field through a copper wire to pull in a magnetic, movable iron core. When current flows through the wire, the iron core is attracted toward the fixed iron core inside the wire, constantly drawn to the space within the electric current. When the electric current is cut off, the attraction ceases. (Depending on the model, there may be some residual magnetism.)

Takaha Kiko will hold a solenoid workshop to recruit SOLECON applicants in Silicon Valley. The workshop will be preformed by world famous art unit, and the solenoid evangelist, **President Tosa of Maywa Denki.**

Date and Time : January 15th (Tue.) 19:00-20:30

Place : Xhub space Silicon Valley

250 W Tasman Dr Suite 180, San Jose, CA 95134 USA

Tel: 669-214-3690

(Time schedule)

19:00-19:30 Information about Takaha, Solenoid, SOLECON
Presentation by Inventor of "KUSURIPPI"

19:30-20:30 Workshop by President Tosa of Maywa Denki

Participants should
bring a own smart
phone battery charger

<< Gift for workshop applicant >>

(1) Solenoid workshop kit

(2) Otamatone

(3) SOLECON T shirt
